

## WELL BEING REPORT

BY MURRAY ROSS AND JOHN DICKSON

20/3/08 to 25/3/08

Easter Confest Woorooma Woolshed site Moulamein NSW

Very little happened this Confest.

21/3/08 At about 9 pm while haveing tea at Arts, a lady came to report a man had collapsed near the hot tub, I attended the area and found a drunk person being helped by bathers at the hot tub, he was unable to stand on his own, First aid was called and attended, the man was taken First aid for treatment.

22/3/08 After dark

Had cars come to the front gate with less people in them when they had passed me at the road gate.

Found people hidden under camping gear or the people had left the cars and walked across the front paddock to avoid paying for a ticket, leaveing the car drivers to come in to purchase just one ticket.

It was so bad at one stage we had four cars lined up coming in one after other with people hidden or walking in.

Using our Night Vision Glasses we had no trouble rounding the walkers and escorting them to the front gate.

With more people getting to know the lay out of the site from prevous Confest we find now that more people are trying to sneak in, surpriseingly it is not locals doing this but regular Confest patrons

23/3/08 21.30

Had a call from Rick at the far north end of the lagoon where he was camped of cars coming across the front paddock from the main road out the front of the site.

By the time we found the cars, a white ute and a white people mover bus the occupants had left the cars and gone into the site, very little we could do in the dark, David Cruise and Brian Hall took down rego numbers and were going to follow up the matter later with the police.

FOOT NOTE: These people had entered the property by cutting our front fence out on the road and had driven in this way, by the look of the tracks this entrance had been used often, may be even between Confests with people coming onto our place when we are not here.

24/3/08

Got a call from Massage of a snake in the area, John Dickson and I went down to have a look, people at Massage told us a large snake had come past and had gone into a pile of timber.

We saw the snake come out of the pile but it went back in before we could capture it, this was about 10 foot from the massage tent, John stayed on to see if it would come out again and make another attempt to get it, the snake was a 3foot brown snake.
