Active members who wish to vote in the election of Directors, but are unable to attend in person,

You may apply for a postal ballot. Please read and use the information included with this notice.

Experience with ConFest and DTE

I am proud to have 5 years experience with the Co-operative and ConFest. This has been from building the toilets, running information to helping found and develop the Critical Incident Team (CIT) or the fire team, to keep ConFest a safe place. I have regularly attended and chaired ConFest Committee meetings.

I am standing for Director as I wish to be part of the running and development of ConFest.

Policy statement

Craig Newcombe

I love ConFest and wish to see the festival continue to the best of my abilities.

This is why I have decided to stand as a Director of DTE.

I wish to remain true to the vision of Jim Cairns and to help shape alternatives for society in a way that meets the spirit of the present Festival.

This spirit is a focus on the individual and their own personal development, a focus on ConFest in greater society and a focus on having a great festival. There is a focus on landcare and ensuring a safe, nonjudgmental environment for all participants.

Experience with ConFest and DTE

I have experience in all aspects of ConFest other than the art village. I am adept at operating all plant and machinery.

I am also a qualified A Grade electrician in both Victoria and NSW also possess a federal heavy combination truck licence, which means I can legally drive everything except a road train.

I am committed to DTE ConFest and will do my utmost to see it run well into the future.

Policy statement

I am Steve Gregory but many of you will know me as Scouse.

I have been an Active member since 2001 and during that time I have been a Director for 8 years and am currently the Society Secretary, a role I have held for many years.

I devote many hundreds of hours each year to the admin side of the running of both DTE and ConFest and when my health allows I spend much time onsite setting up the Market as well as assisting Brian with the toilets and much other infrastructure.

I am talented in many ways least of all being machine and large truck driving and operation, I am also qualified in all of the above as well as being an A Grade Electrician both in NSW and Victoria.

I am also able to maintain and repair all manner of mechanics and vehicles and have my own tools.

DTE means a lot to me and I have ideas about taking us further into the future without losing the ConFest flavour which is both special and awe inspiring.
