

ZOOM CHAT 2018-12-13

00:15:28 Zoe and Shardae: Is it this page? <https://dte.coop/what-is-confest/>

00:15:49 Zoe and Shardae: The first agenda item

00:16:15 Trevor Pitt 1767
and Caryn Kettle 1768:
<http://dte.org.au/minutes/2018-11-08%20CC%20Draft.pdf>
<http://dte.org.au/minutes/2018-11-08%20CC%20Draft.pdf>

00:17:33 Kristen Joy: <http://dte.org.au/minutes/2018-11-08%20CC%20Draft.pdf>

00:17:43 Robin:
<https://sharepoint.dte.coop/cc/Shared%20Documents/Meeting%20Minutes/FYE%2030%20June%202019/2018-11-08%20CC%20Minutes.pdf>

00:23:00 Mark: im here just having a problem with my mic

00:25:14 Zoe and Shardae: Isnâ€™t that an OC draft?

00:31:17 Zoe and Shardae: consent

00:39:38 Zoe and Shardae: David you canâ€™t just move on without the committee

00:40:11 Lindy Hunt: Hi everyone

00:42:57 Tania LoveHeart 1820: coral and lindy can you please unvideo yourselves please

00:44:41 Trevor Pitt 1767 and
Caryn Kettle 1768: if the motion is not amended or withdrawn then we need to vote on the motion

00:46:23 Kristen Joy: I'd be happier if Troy was here as he is the admin of dte.coop that I know

00:48:25 Grant: well that took me about half an hour to get my computer up and running. Greetings
all

00:48:38 Tania LoveHeart 1820: hi grant

00:48:41 Grant: anyone have the online agenda link? I still haven't got my head around that.

00:49:08 Tania LoveHeart 1820: i'm not sure grant

00:50:44 Kristen Joy: <http://data.dte.org.au/agendaCCfeed.php>

00:51:09 Grant and Jude: thanks

00:53:40 Zoe and Shardae: 300

00:53:56 Trevor Pitt 1767 and
Caryn Kettle 1768: Basic vests at Bunnings \$7 each

00:55:41 Zoe and Shardae: We wouldnâ€™t need a full kit for everyone, vests and gloves would be essential

00:57:17 Kristen Joy: here's the funding app form <https://dte.coop/to/2ued7>

01:01:54 Lindy Hunt: yes there were a lot of issues last year

01:10:44 Scouse 1619: I would like to suggest that in future all building of the HUB / KITCHEN is done in Modular Construction.As in everything is bolted together so it can be easily taken apart and stored or moved to another site.Walls can be made in 3m tall by 1.5m Sections for easy moving.This will give us a totally Movable Structure in the future.

01:11:02 Trevor Pitt 1767 and
Caryn Kettle 1768: Dear All. "Temporary Structures" need to be compliant with relevant legislation..

01:12:21 Scouse 1619: We should be using the SAA Guide to building Temporary Structures !

01:17:18 Trevor Pitt 1767 and
Caryn Kettle 1768: Will that be like the water supply/

01:26:33 Trevor Pitt 1767 and
Caryn Kettle 1768: Yay

01:26:42 Tania LoveHeart 1820: woo hoo

01:43:00 Kristen Joy: here's what the funding app windows look like

01:43:03 Kristen Joy: 10th January 24th January 7th February 21 February 7 March 21 March 28 March 4
April 11 April

01:44:12 Tania LoveHeart 1820: that's great Kristen

01:46:21 Troy Reid: This is all subject to approval of appropriations being put at SGM on 27-Dec

01:48:25 Trevor Pitt 1767 and
Caryn Kettle 1768: There will be 2x20 foot roofs available

01:50:09 Troy Reid: <https://dte.coop/to/wjnai>

01:50:48 Tania LoveHeart 1820: thanks troy

02:01:52 Chris: Good nite from Chris Wilson (Fire)

02:03:09 Troy Reid: Night Chris

02:11:00 Grant and Jude: back. The support call I thought I had to make can't happen anyway.

02:14:06 Kristen Joy: it may be Tania that you missed the meeting where we heard that the council have suddenly upped their requirements without warning

02:14:28 Tania LoveHeart 1820: thanks kristen

02:15:11 Trevor Pitt 1767 and
Caryn Kettle 1768: Why didnt we send our specs to DOH prior to installation

02:17:02 Tania LoveHeart 1820: ?

02:25:16 Troy Reid: Night All xx

02:25:53 Scouse 1619: Night all

02:26:31 Mark: the NSW DoH are very impressed with the design our new system. they just want us to get the last bit of discolouration out of the water so the UV treatment works more effectively.

02:28:24 Grant and Jude: It still strikes me that correct management of flocculation should well and truly achieve that. As long as our documentation describes our monitoring process and what we will do if we don't achieve the target turbidity.
we should be ok.

02:28:33 Grant and Jude: we should be ok.

02:29:27 Tania LoveHeart 1820: and night DTE cooperative members, be well, Love Tania :)
