04:00:40	Marte 1823:	Containers for everyone!
04:02:25	Jessica Townsend:	Containers are sadly not seacure one site
04:02:56 04:03:37	Elisa Brock:	Perhaps villages' assets should be on an asset register.
04.03.37	John Magor 1841:	I think that introducing greater (and or tighter) levels of financial scrutiny being raised at this stage could be easily considered
		discriminatory (when compared to the very same questions being
		raised about other previous applications). If there are matters of

savings by bulk buying, then surely it's fairer for this to be raised earlier each year, and is a general matter for the OC (and/or CC) to discuss more fully. for about \$100 each we can put a lock box and proper container lock on to containers That's not worked in the past Martin Locks were cut I should be able to vote to .. I'm for don't want to wast time atm ok got to go night all Night Darrylle it would take a lot of effort to remove a quality lockbox, and if slide bolt locks are used you can't get to the shank to cut it Can we pleas not let this discussion devolve into matters of where drumming is to be located - this is neither the time nor place for these discussions.(it's a matter of budget) Whilst I agree that the location is an important (and controversial) topic - but is this the time and place for it to be discussed? Extend the meeting? Maybe a discussion topic re location would be better served (and proposed) in an upcoming meeting? Motion "that the 2020 Autumn ConFest Drumming village budget totalling \$5,460 applied for by Kylie Baynes be approved." Moved by Vince LogiustoSeconded by Kate Shapiro Motion "that the 2020 Autumn ConFest VegOut village budget totalling \$3,881.94 presented and applied for by Mark Rasmussen be approved."Moved by Mark Rasmussen Seconded by Kate Shapiro 130ah battery \$295 at low energy developments, 200ah battery \$405 sealed AGM I think we are out of time, do we extend? actually, 200ah is 360 I'm sorry for the villages that have missed out on having their budgets considered tonight. With regards people interrupting, and talking over one another without the chair calling them - can I ask that we all try to talk (and listen) to one another respectfully - it makes for a much more enjoyable (and smoother) experience for all involved. FOCUS people! And herein, I think, is the issue with raising a running commentary on amounts left - it unfairly weighs against any proposals presented tonight (as opposed to earlier nights) This should not be an issue for villages and activity spaces as we had the motion to have allocations of preset amounts on set dates. Before starting to approve village budgets the meeting should have checked total was less than \$75,000 but I knew that it did. Im here for Climate and Ecological Emergency for the person who

05:00:19 John Magor 1841: Aaron - it seems to me the former.

05:00:49	Kathy Ernst:	Robin, Fire circle is not a village budget. Also I am not sure second open stage has been done yet. That would make your list closer to
		mine.

05:13:14	a human Links:	its a cc meeting
05:13:31	a human Links:	i have just received more info in regards to upcoming budgets
05:13:45	a human Links:	if they are to eventuate we will ned to appropriate another 120K
05:16:16	John Magor 1841:	I understand (and fully appreciate) the need to be thorough re what's
03.10.10	JOHN Wagor 1041.	approved re spending - but if I was putting up an application, and was asked some of the questions - or more specifically - the way they're
		being asked, I'd feel pushed away. I hope that whilst we're being
		thoughtful of spending - we're als equally (if not more) thoughtful
		regards encouraging what it is that makes confest confest - the
		villages and other spaces that people bring along with their passion
		and unique ideas - none of which is for profit. Just remember what it

05:17:50	Martin 1721:	
05:17:58	Martin 1731:	what is the media and print
05:18:22	Kathy Ernst:	Also info is not village budget. Agree that we may need SGM for more

05:20:34	Martin 1731:	do we really want to hand out throw away items. I feel this is the same

06:22:27	Martin 1731:	good night everyone. I'm out.
06:23:24	Aaron Shipperlee:	Now that we are paying the true cost of water, storage, compliance,

06:23:40	Aaron Shipperlee:	The event should have been costing more.
06:24:29	Aaron Shipperlee:	We now appear to be paying a truer cost and it's higher than our
