What is Australia's current inflation rate? The official inflation rate is at 7%,
down slightly from its 30-year high of 7.8% for the December quarter of 2022.

22:58:05 From ahosie to Everyone:

Indexed and rounded up would be ~\$195 for a full price ticket

22:58:43 From Andrew McLean to Everyone:

I can't speak right now. I think the mid price plus \$10. \$160. We will get a thousand more people this year.

22:58:45 From John to Everyone:

I think that is the 3 month rate annualised, not 12 month rate.

22:58:49 From Brett Dalton to Everyone:

Inflation rate data from the RBA

22:58:49 From Kevin Taylor to Everyone:

\$ 200 is a 11% increase on \$ 180

22:59:25 From Brett Dalton to Everyone:

@Andrew McLean at \$170 that would be a price reduction

22:59:43 From David Cameron to Everyone:

Reacted to "I can't speak right ..." with

22:59:56 From david cruise to Everyone:

\$160

23:00:11 From Andrew McLean to Everyone:

We had 3 tiers - 130/150/180. Thats why I said 'mid price'

23:00:34 From Suzie to Everyone:

Reacted to "\$160" with

23:00:41 From Brett Dalton to Everyone:

the 130/150 was a discount on the "full price"

23:02:22 From Peter Tippett to Everyone:

What is the age for childrens tickets? Are we defaulting to last year
whatever that was?

23:03:15 From Charlie to Everyone:

Last time I bought a kiddo up it was up to 12 I think

23:03:57 From Suzie to Everyone:
Robin yes thats what we need to look at

23:04:35 From Marte Kinder to Everyone:
Average ticket price isn't $(130 + 150 + 180) / 3$

23:05:10 From Andrew McLean to Everyone:
 $\$160 \times 5000$ tickets @ $\$800,000$

23:05:26 From Lindy Hunt to Everyone:
You haven't counted the take from the market

23:05:33 From Peter Tippett to Everyone:
 $\$800,000 / 6,000 = \133.33

23:06:57 From Andrew McLean to Everyone:
I am swayed by the $\$10$ increase since 2019. So $\$170$ is reasonable.

23:07:43 From Marte Kinder to Everyone:
We need a new ute for the slip on too.

23:07:52 From Suzie to Everyone:
Brett wise words

23:08:14 From Peter Tippett to Everyone:
 $\$170 \times 6,000 = \$1,020,000$

23:08:48 From Jason Thomas to Everyone:
you first have to get 6000 people for that

23:09:04 From Andrew McLean to Everyone:
I also think that $\$170$ will be less of a problem when others are not getting early bird etc

23:09:14 From Peter Tippett to Everyone:
we normally push 7,000. I was being conservative.

23:09:37 From Jason Thomas to Everyone:
what was last years count>

23:09:58 From Peter Tippett to Everyone:
Over 7,000 Hang on and I will see if I can find something.

23:10:25 From Andrew McLean to Everyone:
2015 = 5000
2016 = 5500
2017 = 6000
2018 = 6500
2019 = 7500

Rough figures from how I saw it

23:10:41 From John to Everyone:
Last year's attendance was probably down, in part because there was much confusion around whether Confest was going ahead, and late ticket sale.

23:10:56 From Brett Dalton to Everyone:
remember inflation is compound. its not simple "interest" as it were
