#	Item	Raised by:
1	Acknowledge and pay respect to the traditional owners and ongoing custodians of the land	
	When we gather in person, we meet on the stolen, unceded lands of the Woi Wurrung and Bunurong peoples of the Eastern Kulun Nation - CERES in so called Brunswick East is on Wurundjeri country.	
	Indigenous sovereignty has never been ceded in Australia. It always was and always will be, Aboriginal land.	
	We would like to pay our respects to the elders of these lands, past present and emerging, also to the elders of the lands you might be listening from.	
	We recognise the past atrocities against Aboriginal and Torres Strait Islander peoples of this land and that Australia was founded on the genocide and dispossession of First Nations people.	
	We should endeavour to be mindful of this in everything we do, given our focus is gathering to create better ways of living in our society, not just for festival attendees but for all.	
2	Meeting Started	Procedural

With the roof and windows leaking, electrical hazards causing the internal framing are rotting and a health hazard. The container cannot be secured as there is no door. Additionally the existing lighting and cabling arrangements present significant OH&S issues. These issues need to be rectified with new windows, doors, replacement lighting, proper cable penetrations in the container walls, and rectifying all the existing holes in the container walls Funding Application 8.03 Fixed radios for cottage, Machine shed and Ticket Booth 190.00 22/10 - The intent of the project is to install 3 refurbished Village emergency radios in the ticket box, machine shed and cottage. Additionally 3 existing 12dB antennas will be utilised to ensure good coverage for these radios. The locations were chosen as they all provide mains power meaning the radios will not rely on battery, are close to phones and other communication methods, and are often where people will be gathered or working. These radios will be set to Channel 3 (Generally used for Main and setup during festival) and can be switched to use the repeater when required. These will provide simple to use and reliable radio coverage both during and outside events, resolving a significant issue where the tin roof of the cottage blocks radios. Given they will be fixed and "customised" they pose a lower theft risk than a standard CB set. The handsets utilised have no value of their own outside this setup and would otherwise be written off Funding Application 8.04 Firebreaks - 4000.00 23/10 - This is a		· · · · · · · · · · · · · · · · · · ·				
18/10 - SiteOps footings replacements - 1220.00 18/10 - Siteops container footings have sunk and need replacement. This is to purchase materials and the lifting equipment to do this safely. The lifting equipment will be a one off cost and reusable to avoid the need to hire a crane when this needs to be done in the future Funding Application 8.02 Site Ops Container refurbishment - 4406.00 21/10 - Site ops operations container is currently unsafe and unserviceable.
